Helping Clients Build Value for 45 years

Working with James Hamlin & Co., P.C. includes the following:

Advice. Direction tailored to your businesses goals and current financial position.

- Effective tax, accounting and financial statement services
- Improved technology design and support
- Superior investment management services

Attention. We meet deadlines, promptly return phone calls; our client needs are our priority.

- Forecasting Assistance
- Budgeting Assistance

Trust. Information shared is held in the strictest confidence.

- Succession Planning
- Reviews
- Quickbooks advisors & experienced bookkeeping team
- FTP online files exchange servers

Support. Partnering with James Hamlin & Co. P.C. is like hiring your own CFO with a specialization in Tax revue. You know your business; we know the impact of the numbers to your taxes.

Our professionals and affiliates can assist with almost every financial or business operations need. We have dedicated CPAs, investment professionals, technology personnel, and consultants who can help manage daily affairs or resolve unique or complex situations.

Most small and medium size businesses don't use their accountants as advisors, like larger companies do. We hand-tailor our services to work with your present accounting software and staff; providing guidance, monthly financials and all the compliance work.

The accuracy, timeliness, and strategic value your accountant provides are critical to your future and your peace of mind.
